Hi Kate,

I looked thru my files and I think unfortunately I saved over the earlier version with this version. This version has the original NJ data, plus the added NJ data of the draft figure I sent you. If you want to remove the added data, simply delete the cells E15-F20. You can remove the NH point the same way.

Thanks,
John

Hi John

Thanks for the word file.

Would you have a excel file (or just the worksheet) that has this particular figure.

I could then remove the New Hampshire point
